MAT DISPENS INDIA
Trade fair on Bonding Solutions for industry
13 - 14 - 15 September 2023
Bengaluru International Exhibition Centre (BIEC), Bengaluru

www.mat-dispens.com
The changing face of manufacturing ...

Consumer preferences for flawless, miniature, efficient, safe, light and durable products with curved shapes is redefining manufacturing processes. Manufacturers are using diverse materials, requiring superior, safe and invisible fastening and bonding technologies.

Precise and reliable dispensing equipment has become crucial for all mass production applications — from sealing mobile phones to building automobiles.

What is MatDispens

MatDispens, India’s only trade fair on bonding solutions for industry - adhesives, sealants, silicone, PU, tapes and other performance materials and related dispensing, metering, mixing equipment used across diverse industries.

It will explore these trends in the context of opportunities to suppliers in the years ahead.

Key highlights 2022

343* Exhibitors

20942** Visitors

Buyer-seller Forum

Workshop & Seminar

Co-located with industry leading trade fair

*Figures include numbers of electronica India, productronica India, IPCA Expo & MatDispens

**Figures include numbers of electronica India, productronica India, IPCA Expo, MatDispens, SmartCards Expo

Exhibitor profile

- Adhesives and sealants: cyanoacrylates, hot-melt, PSA, conductive, PU, silicones, epoxy, resins, EMC gaskets, thermal insulation material, thermal interface material and NVH material
- Adhesive tapes: bonding and masking tape, thread sealing tape, packaging tape and electrical insulation tape
- Dispensing & dosing system: fluid dispensers, hot melt, dosing, metering & monitoring equipment
- Consumables and accessories: syringes, cartridges, needles, barrels, nozzles and tips
- Related equipment: UV light curing equipment, heat curing systems, mixing systems and spraying systems
- Dispensing automation: dispensing robots, servo controllers, PLC, touchscreen HMI and system integrators

Visitor segments

- Automotive
- Electric vehicles
- Battery manufacturing
- Aerospace
- Display screens manufacturing
- LED / Lighting manufacturing
- Packaging
- Medical and hygiene industry
- Wind & solar
- Electronics assembly & manufacturing

We provide sealing solutions for electronics industry, primarily in white goods and automotives. We have witnessed a lot of interest from electric vehicles market here. We have been in this business for over four decades and have had a delightful experience at productronica, both in Munich as well as in India. We have received many interesting queries and we’re hopeful of thriving business in the coming months.

Industry 2022

In which area of responsibility are you mainly employed?

- Electronics manufacturing services (EMS): 45%
- Automotive Including EV: 37%
- Industrial: 33%
- PCB (Printed Circuit Board) manufacturing: 27%
- LED/lighting manufacturing: 20%
- Aviation and aerospace: 20%
- Other manufacturing industry: 20%
- Measuring, control and automation technology: 18%
- Battery manufacturing: 18%
- Semiconductors manufacturing: 18%
- Energy technology / Wind and Solar: 18%
- Military and defense: 15%
- Medical and hygiene industry: 15%
- Service sector: 15%
- Telecommunications: 15%
- Trade (specialised retail, retail, distribution): 15%
- Mobile manufacturing: 15%
- Home entertainment: 15%
- Display screen manufacturing: 15%
- Packaging: 15%
- Office and data processing technology (OEM): 15%
- Railway technology: 15%

Supporting program 2023

The Buyer-Seller forum is a unique platform to connect major buyers with sellers of advance performance materials and their related dispensing equipment from various segments including automotive, EV, battery manufacturing, electronics, LED & Lighting, aerospace, white appliances to name a few. In 2022, more than 300 meetings were successfully concluded.

Accompanying trade fairs 2023

electronica India – Connecting everything – smart, safe & secure – is the leading trade fair for the electronics industry in India. It provides you with an overview of the entire spectrum of the electronic components industry and gives you a new drive for your business all under one roof.

productronica India is the innovative platform for electronics production technologies which are experiencing a strong increase in demand due to India’s emerging electronics manufacturing market.

This trade fair brings the entire PCB industry eco-system and value chain together. It showcases the latest PCB technologies from manufacturers and suppliers from across the globe to facilitate the growing demand of PCBs in various industry segments.

SmartTech Asia is India’s only trade fair focusing on Identification, authenticating and digital payment technologies and applications. The event was launched in 1999 as Smart Card Expo and was renamed in 2023 as SmartTech Asia.
The location

The Bangalore International Exhibition Centre complements its 77,200 square meters of covered space in five aesthetically and functionally designed exhibition halls. The conference centre, food court and other support services for exhibitor and visitor comfort, all within the same complex, make BIEC a unique and most sought after exhibition centre in India.
